To Whom It May Concern:

Re: Wynn Construction Services

In 2000-2001, while CEO/President of Rocks Springs Ranch, we contracted Wynn Construction Services to expand our current lodge by constructing a separate multi unit lodging facility. The project included six upscale cottage rooms complete with full baths, wet bars, fireplaces, separate verandas, carports and a laundry facility. In addition, we also required a complete remodel of the exiting lodge's kitchen to meet the needs of this expansion. The two projects totaled approximately \$900,000. Wynn Construction completed the project on time and within set budget.

Over the past 20 years I have worked with Gordon on multiple projects and in many capacities. I have always been impressed by the quality of his work and his ability to keep track of the smallest details regardless of the complexity of the project or the number of projects he is working on. Gordon communicates well with clients, subcontractors, and county officials to efficiently realize your goals with quality work.

Based on my knowledge of your project and my experience with Gordon Wynn, I would highly recommend him for the St. Francis project.

Sincerely,
