To Whom It May Concern:

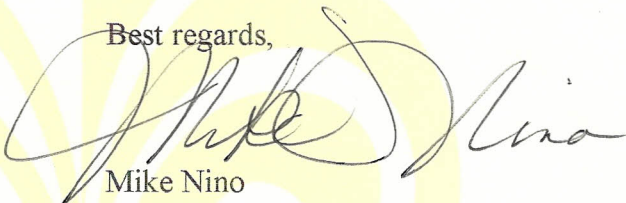

My name is Mike Nino, owner of Nino Homes and Nino Development, Inc., development and residential building companies based in Hollister, California. Although my companies focus on residential subdivision building, we do get involved in Industrial and Commercial work from time to time.

At various times in the past, we have employed Gordon Wynn of Wynn Construction Services to assist us in our non-residential projects. Based on our experience in dealing with Wynn Construction Services, I would highly recommend them for any commercial or residential project. I have recommended their firm on a number of occasions. I have worked hard for many years to ensure my company has a good reputation. It is very nice to be able to recommend Wynn Construction Services for the projects we are unable to take on, without fear of jeopardizing our own reputation.

I have found that Gordon has a desire to do things right from the start. This includes coming up with a thorough bid in the beginning rather than resorting to change orders later. This thoroughness carries through to the day-to-day supervision of the job. Gordon himself is on the job everyday to ensure no details are missed and the schedule runs smoothly. He is organized, detail-oriented and conscientious, resulting in smooth jobs and good client relationships. Finally, due to Gordon's extensive construction experience and his passion for building in general, he always seems to be up on the latest, most advanced construction materials, products and practices.

I highly recommend Gordon for your building project and would be happy to answer any questions you may have. Please call me at 831-635-0745.

Best regards,

Mike Nino
